

To whom it may concern

My name is Arvid Cristina, and I am applying for the job of Video Editor. You will see from my resume, that I have primarily been working as an editor/assistant editor in feature films and television and this is where my primary set of skills lies. Before my time in post-production, I worked as a Production Coordinator on various film and television projects, essentially figuring out logistics in order for the projects to be completed on time and within budget. Most recently I worked for boutique agency, R&D Design, creating various video advertising projects for their many clients, which included the New Orleans CVB, the Urban League, and various destination management companies, as well as stepping into the emerging VR world.

As you know, working as an editor requires incredible attention to detail as well as organizational skills and an ability to work quickly and under pressure, all of which I demonstrated in my previous jobs, and will continue to do so.

Thanks and I look forward to hearing from you.

-Arvid Cristina
